# Working With Us

The solidarity and team spirit we create with our employees, enable us to approach our customers with a common identity awareness.

We aim to contribute in a sustainable fashion industry by promoting eco-friendly and ethical practices. Upholding customer satisfaction and social responsibility as our guiding principles, we are committed to sustainable growth and success in the future.

# Carbon Footprint

[www.pt-fashion.com](http://www.pt-fashion.com)

## We believe

that working with natural resources without harming the environment is essential for the continuation of our existence as people and as a company.

In all our activities, we take care to produce solutions that make positive contributions to the environment and nature.

### ■ There is one more way

to repair nature by handling production with care.

### ■ We use

clean energy to minimize our Carbon Footprint.

# Product Groups

We are driven by the principles of sustainability, quality, and innovation in the fashion industry.
